OUR WINES

Still and sparkling wines are available from our cellar door or for online purchase. Our Bacchus produces a Sauvignon Blanc style of wine with aromatic and floral characteristics. Depending on the year the Pinot Gris, Pinot Noir and Chardonnay will be used in blends or as single varietals to produce still and sparkling wines. All the grapes used in making our wine have been hand-picked and sourced from our vineyard at Chartham.

For the range and availability of wines on offer, please see

CHARTHAM VINEYARD

OUR PLACE

Chartham Vineyard, established in 2013, is based on traditional farming values with a modern, eco-friendly approach.

The vineyard faces South across the Stour Valley and combines topography, geology, soil, aspect and micro-climate to produce a perfect location. The farm, with its long history of fruit growing, is located just below the North Downs Way, a footpath used for centuries by pilgrims on their inspirational journeys to Canterbury, 3 miles to the east.

The farmyard at Burnt House Farm, beside Chartham Station just off the A 28, consists of a collection of 17th century buildings including the dovecote featured in our logo. From here we will sell our wines directly to the public from the cellar door.

We look forward to providing you with a unique visitor experience.

OUR VINEYARD

Historical records from the 14th century reveal the growing of vines on the Canterbury Cathedral estates in Chartham.

Our vineyard story began in 2013 when we planted 2ha of our 40ha family farm with Bacchus, Chardonnay, Pinot Noir and Pinot Gris, all rooted in the dark-brown flinty loam on a massive chalk bedrock similar to the Champagne region of France.

More Pinot Noir were planted in 2014, Burgundy clones being chosen with a view to red wine. Choice of clones and root stock, and methods of cultivation, have been chosen to achieve maximum ripeness in our slowly-warming English climate.

OUR VALUES

We are custodians of a very special landscape.

Our aim is to produce high quality fruit and top quality wines which reflect the distinctive terroir of our site within the chalk landscape of the Kentish Downs. There are no shortcuts; there is no substitute for time and patience.

We recognise the importance of our role in the community, the family enterprise and the use of sustainable methods to promote biodiversity.

TASTINGS AND TOURS

We are keen to share our enthusiasm for our vineyard and wines.

We welcome individuals and groups for vineyard tours and tutored tastings. A demonstration vineyard is located in the historic setting of our farmyard. Longer guided tours to the main vineyard in its downland setting are also provided. All tours and tastings should be booked in advance.
